DOMESTIC AND INTERNATIONAL FREIGHTS

Affinity Logistics is the one stop solution when it comes to freight forwarding. Its capabilities are unmatched in the freight forwarding ecosystem. We ensure our valuable customers a service tailored to your needs by offering the goods movement appropriately and reliably any where in the world. At Affinity we provide a helping hand in moving goods domestically and internationally, managing your documentation works, services including warehousing, transportation, freight consolidation, filing of insurance claims etc.

OCEAN FREIGHT

Affinity logistics also effortlessly provide the Ocean Freight services to you. As ocean freight or sea freight uses high capacity ships which transit through regular routes on scheduled times. Goods are loaded on to containers and these containers are then stacked on the vessels for sailing to the destination. We work with top Carriers around the world to offer the most competitive rates and secure space.

We're proud to say that all documentation and value added extras are processed in-house through our network of offices around the globe to ensure your cargo arrives as planned.

AIR FREIGHT

Air shipping is gaining more and more momentum now. Air freight, has emerged as the fastest mode of transportation, it often proves to be the best solution for international business cross trade around the world. As it shrinks the world at your door step; it is a convenient means of transporting perishables and fragile goods.

The demand for frequent and prompt deliveries and growth in international business expansion is pushing companies to have more efficient shipping options for customers. Affinity logistics provides you everything under its umbrella with air freight exports, imports and our experts ensuring that your goods reach safe at the destination while you sit back and relax

IMPORT AND EXPORT CUSTOMS CLEARANCE

Affinity logistics as a freight forwarder endeavour the complexity in the clearance of customs around the globe. Our special clearing agents across the globe are well equipped to handle the customs clearing requirements as per the prerequisites at destination. We superintend all the documentation and customs inspection for the shipment to be processed.

SEA-AIR(OR ROAD) FREIGHTS

Affinity logistics also additionally offers this intermodal transportation facility for the speedy conveyance from the neighbourhood ports to the final inland destination through rail or road transportation. Our connoisseur coordinate and provide assistance for your consignments to reach on time.

AIR-AIR MOVEMENTS

Affinity logistics also offer air transportation especially to those countries where there is no direct air transportation or direct transit is permitted. Our factotum across the globe would succour to deliver the goods dauntlessly and expeditiously by transporting the goods from those countries from where the destination country permits trade.
